HOE OUT YOUR ROW.

One day a farmer's lazy boy
Was hoeing in the corn,
And moodily had listened long
To hear the dinner horn.
That welcome blast was heard at last,
And down he dropped his hoe;
But the old man shouted in his ear—
"My boy, hoe out your row!"

Although a "hard one" was the row,
To use a ploughman's phrase,
The lad, as sailors have it,
Beginning well to "haze"—
"I can," said he, and manfully
He seized again his hoe,
And the old man smiled to see
The lad hoe out his row.

The lad this text remembered,
And proved the moral well,
That perseverance to the end
At last will nobly tell.
Take courage then! resolve you can,
And strike a vigorous blow;
In life's great field of varied toil
Always hoe out your row.

ANNUAL SCHOOL REPORT

OF

Aaron Sheely, Esq., County Superintendent.

TO HON. J. P. WICKERSHAM, STATE SUPERINTENDENT.

Sir:—It will be quite impossible, I find, to give you anything like a fair and full report on all the subjects and topics named in your instructions to County Superintendents without extending my report to an unusual and perhaps undue length. I shall, however, try to be as brief and concise as possible, and hope you will excuse me if I should exceed the space allotted me.

EDUCATIONAL PROGRESS IN THE COUNTY.

For the last ten or twelve years the condition of our schools has been slowly but steadily improving. During the war the progress, it is true, was not as great or as marked as we could have wished; yet we nevertheless made progress. Although many of them are not by any means what they should be, they are, as a whole, better now than at any previous time, notwithstanding the depressing effects of the war.

This improvement may be seen in the improved condition of many of our school houses, and the better qualification of teachers. Public opinion has also very much improved. True, there is still some opposition to the system, but it is confined almost entirely to a few localities, and is owing altogether to prejudice and selfishness.

Houses.—Notwithstanding the high price of building material and labor, a considerable number of houses are erected every year. More new and really *good* houses have been put up during the last five years than ever before in the same period of time. Nine new houses have been erected during the year, of which number Huntington, Menallen and Union have each two; and Latimore, Mountpleasant and Oxford each one. These are all good, commodious buildings, suitably located, and well supplied with good but plain furniture. They are in striking contrast to the miserable dilapidated structures which they displaced.

Arrangements are in progress to erect quite a number of new houses during the present season. And they are needed. By reference to the statistical report it will be seen that we have still many houses that are unfit for school purposes.

We have some that are a disgrace to the county. They do not deserve the name of school houses. They are mere hovels,—relics of a by-gone age, and may be aptly styled the antiquities of the county.

The districts that deserve credit for having the best houses are Gettysburg, Butler, Menallen, Union, Huntington and Oxford. Some of these are really superior structures, and reflect great credit upon all who were instrumental in their erection.

Furniture.—Except in houses recently erected, our school furniture is generally plain in style, and much of it poor in quality. Some of it is even positively bad and injurious, consisting for the most, part of a smoky stove and battered rusty pipe, rough boards or slabs, in lieu of desks, ranged round the walls, for the larger pupils, and high slab benches without backs for the younger ones. My compassion has often been deeply moved on visiting these abodes of suffering, to see their unhappy inmates yawning and writing on high seats, with no support for their backs, and their feet dangling several inches from the floor.

I have often wondered, as I looked upon these youthful sufferers, thus seated and showing unmistakable signs of pain, why those unfortunate children should thus be doomed to excruciating torture,—why they should thus be suspended between heaven and earth for six weary hours each day. If parents could only be induced to take the places of these innocent sufferers, and be compelled to sit for but one day in a similar position, they would learn to pity their children, and be prompted to attend to their health and comfort in the school room.

Apparatus.—The Gettysburg schools are supplied with some very good apparatus, such as globes, planetarium, planisphere, outline maps, charts, &c. In the country the apparatus is for the most part limited to blackboards, spelling and reading charts, and outline maps. A set of good outline maps should be in every school-room. When properly used they are of immense value to both teacher and pupil. Many houses have not a sufficiency of blackboard surface. The schools of some five or six districts were supplied last fall with a Chart of the Solar System.

☞"I fear that we shall lose Pennsylvania this next election. MEETING IN BUCHANAN VALLEY.

Democrats, Arouse!—"White Men must Rule America!"

A Democratic meeting will be held at Strasbaugh's School-house, in Buchanan Valley, Franklin township, on SATURDAY EVENING, September 21st inst.—Several speakers will be present to address it. White men of the Valley and Mountain, rally! Turn out to a man!

W. A. DUNCAN,
Chair'n. Dem. Co. Com.

Sept. 13, 1867.

ATTEND TO IT!

It is not too early to call the attention of Democratic voters to the importance of being assessed. The election is less than a month off.

See to it, friends, that we lose no votes by negligence.

See to it, active men of the party, that every voter is assessed!

BE ASSESSED! BE ASSESSED!

REACTION!

The reaction is coming. Maine tells a tale which has no two meanings. If it were possible, says the *Age*, to misunderstand the import of the elections in Connecticut and California, that in Maine has no questionable aspect. It is a telling rebuke to the party which would put the balance of political power in this country, and in the middle of the nineteenth century, in the hands of a body of prejudiced and uninstructed negroes. The white men of this nation are not yet prepared to sacrifice the country on the altar of negro equality erected by the party in power. They are demonstrating this fact in all directions. Not an election is held which does not show losses for the Radicals. Maine has just given the Sumner and Stevens revolutionists a premonitory warning of the "wrath to come," and when Pennsylvania and New York record their verdict, the beginning of a movement will have been reached which will save the nation from the mad ambition of the men now ruling the Radical party.

ORGANIZE, PENNSYLVANIA!

The great victory in California has a peculiar significance at this time. It demonstrates, clearly and unmistakably, that the people are tired of Radical corruption and fanaticism—and should arouse every conservative cit zen of Pennsylvania to vigorous action. This State can be redeemed from the hands of the thieves and negro worshipers in October, if we do our duty. Let there be perfect organization in each election district, and a full poll of our vote, and Pennsylvania will respond to California with an old fashioned majority. Then close up the ranks, and *forward to victory!*

"WHO is Dr. Jordy?" This question is often asked in regard to the Radical candidate for the Legislature. We know little about him, but if he be the same Dr. Jordy who charged the exhorbitant sum of SIX HUNDRED DOLLARS to "clear from the draft" a man notoriously unfit for military service, all we have *now* to say is, that he was a great fool to allow himself to be placed before the people of the county for *any* office, least of all for a seat in the State Legislature, in which "big charges" and corrupt practices have become quite too common for the good of the tax-payers or the honor of the Commonwealth.

WILL any Radical paper tell us why the Republicans of Philadelphia, in the midst of the late war, refused to make a nomination against Judge Sharswood when he was the candidate of the Democratic party for Judge of the District Court of Philadelphia? If Sharswood was a *Nullifier, Secessionist, Traitor*, &c., why did the Republicans of his own city endorse him at the most critical point in the late war?

HENRY H. HAIGHT, just elected Governor of California, is a native of Rochester, New York, and is about 45 years of age. He is a son of Fletcher M. Haight, formerly a distinguished lawyer in Rochester and in St. Louis, and subsequently eminent at the bar of San Francisco. He is said to be a man of very decided talents, most pleasing address, and irreproachable character.

As the returns from the California election come in the distress of the Radicals is deepened. Greely sums up the whole matter in the following doleful paragraph:

California returns, which have grown worse daily, have at last touched the lowest depth. The Democratic majority on Governor is 8,000; the Legislature is gone, hook and line, and, of course, a United States Senator with it; and, to fill the cup, we are told that it is doubtful if a single Republican Congressman is chosen.

Poor old Horace!

CONNECTICUT shivered one wing of the Radical army. California has routed the other—both flanks are turned, and it only remains for Pennsylvania to break the centre and make the rout complete.

Then rally to the polls, white men, and give negroism its death blow!

THE Democracy of Harrisburg fired a grand salute on Capitol Hill, in honor of the victory in California, on Saturday evening. They paid for their own powder. Geary fired one hundred guns in honor of the negro victory in Tennessee at the expense of the State.

"EQUALITY BEFORE THE LAW!"—Two negroes have announced themselves as candidates for Congress in the First and Fourth districts of Georgia. They claim that the right to vote carries with it the right to hold office, and that as the blacks are in a majority, white men are not entitled to represent them. The Rads will get enough of negro equality presently.

FOR THE UNION—California.

AMNESTY PROCLAMATION.

An Amnesty Proclamation, by the *President of the United States*, expected for some weeks, was issued on Saturday. The instrument re-opens that of May 29th, 1865, issued by Mr. Johnson, and extends pardons to all persons who, directly or indirectly, participated in the late rebellion, restoring to them privileges, immunities and rights of property, except in regard to slaves, and except in cases of legal proceedings under the laws of the United States, the only condition required being the oath of allegiance or fealty as therein prescribed, as follows:

"I do solemnly swear, (or affirm,) in the presence of Almighty God, that I will henceforth faithfully support, protect and defend the Constitution of the United States, and the union of the States thereunder; and that I will, in like manner, abide by and faithfully support all laws and proclamations which have been made during the late rebellion with reference to the emancipation of slaves. So help me God."

The excepted classes are now reduced to three. First, the chief executive officers of the late Confederate government—its president, vice-president and heads of departments, agents in foreign countries and persons who served as military officers above the rank of brigadier general, and naval officers above the rank of captain, and Governors of States who, like Letcher of Virginia, Vance of North Carolina, Pickens and Magrath of South Carolina, Brown of Georgia, Watts of Alabama, and others, maintained, abbetted and supported the Confederate government in its resistance to the power of the United States. Secondly, all persons who in any way treated otherwise than as prisoners of war all captured soldiers and sailors of the United States. Thirdly, all those who at the time they may seek to obtain the benefit of this proclamation, are actually in civil, military or naval confinement or custody, or legally held to bail either before or after conviction, and all persons who were engaged, directly or indirectly, in the assassination of President Lincoln.

The Proclamation was unanimously agreed to in Cabinet meeting. That it would be denounced by the Radical leaders, was expected. They only applaud what is done for the benefit of the negro—not of the white man.

Judge Williams as seen by Mrs. Jane G. Swisshelm.

In one of her letters to the Chambersburg *Repository*, (Radical,) Mrs. Swisshelm gave the following as her estimate of the Radical candidate for the Supreme Court. It may be premised that Mrs. S. is a thorough-going Radical, a shrewd observer, and probably as good a judge of mental abilities and stamina as any one of her sex in public life:

"It appears to be an acknowledged fact that the Pittsburg bar is to day as little burdened with brains as at any period since it was a bar—and no better evidence of its appreciation of *respectable mediocrity* could be offered than its selection of Judge Williams for the Supreme Bench. In '41 and '42, when he was a law student in the office of Judge Lowrie, I had some business in settling my father's estate. Judge Lowrie was my attorney. Going to the office one day, I found him explaining to Mr. Williams and another student a point of law, and he asked me to sit down and wait. I sat down and had the benefit of the explanation; heard the questions propounded by Mr. Williams and the other, and the going over and simplifying the case by the teacher. I sat in blank amazement, wondering if that little man ever, ever, EVER, would get enough law into his head to make any kind of living by letting it out in quantities to suit customers; but he is sober, industrious, patient, and plodding, and after all his dullness of comprehension, did learn a good deal of law, and I think that in any case which was well established by precedent, and which had been carefully and lucidly explained, and simplified, he could understand it, and would decide according to the best of his knowledge and belief. When he comes to a new field of investigation, may the saints have compassion on the poor, short, fat, puffy man.—What a time he would have wading, floundering—and what a muddle he would be likely to make of it! A man of active brains would not be likely to run quite as much to that substance most valuable in whales, and if the Republican party of Pennsylvania have *no better material* out of which to manufacture a Supreme Judge than Hon. W. W. or H. W., or W. something Williams of Pittsburg, *they had better vote for the Democratic candidate, whoever he may be, on the ground that they cannot be worsted.*"

A RADICAL OPINION OF JUDGE SHARSWOOD.—The following notice of the Democratic nominee for the Supreme Court is from the pen of Hon. F. B. Penniman, of the Pittsburg *Gazette*, (Radical.) It *is in pleasing contrast with the gross* notices in the major portion of the Radical press:

"In nominating Judge Sharswood, as their candidate for the Supreme bench, the Democrats have *made a wise selection* for themselves during the progress of the canvass, *and for the people of the whole Commonwealth in case he should be elected.* He is as suitable a man for the place as they could have brought forward. Naturally of sound and discriminating judgment, his faculties have been matured by thorough study and a large and varied experience. His reputation as a man is unblemished. Indeed, he is a consistent and honored office bearer in the Presbyterian church. *As a magistrate, a suspicion of unfairness or partiality has never been raised against him.*"

FORNEY'S *Press* has been scared into one honest admission. Startled out of its ordinary and almost unconquerable propensity to lie, by the returns from California, it declares that the Republican party was defeated "*because it had become so shamefully corrupt.*" That is an honest confession. The corruption of the party in Pennsylvania, and its endorsement of negro suffrage, will ensure a defeat even greater than that in California.

A VERY prominent Republican from the county, as he passed us this morning, asked—

"What's the news from California?"

We replied:

"Haight elected by over 8,000, two out of three Congressmen Democrats, a Democratic Legislature, and a Democratic United States Senator in place of Conness."

"Well," said he, with a smile, "see that *you* behave yourselves when *you* get in power."

He knows a revolution is coming, and has too much good sense to regret it.—*Lancaster Intelligencer.*

A. R. SHARP, one of the loyal thieves against whom a true bill was found for stealing valuable books and documents from the State Deparment at Harrisburg, has been dismissed from the position he occupied under the administration of Governor Geary. He threatens to make disclosures that will implicate parties holding much higher positions. There is quite a quaking among Radical officials in consequence. The probabilities are that Sharp will be furnished with substantial reasons for holding his tongue. That is the way such things are managed by "the God and morality party."

CONNECTICUT and California—one on the Atlantic, the other on the Pacific. The two C's are united.

A FACT IN NATURAL HISTORY—Copperheads are very abundant in California this year.

Victory! Victory!

CALIFORNIA RESPONDS TO CONNECTICUT!

"An Earthquake All Around Us!"

A Drawer Knocked Out of the Bureau!

A Democratic Governor, Democratic Legislature, Democratic Congressmen, and a Democratic U. S. Senator!

Golden News from the Golden State!

The election news from California is *of the most glorious character.* The Democrats have swept the State, from one end to the other, by a majority of nine or ten thousand, electing their Governor, the entire State ticket, certainly two of the three members of Congress, and the Legislature—which will give us a United States Senator in place of Conness, Radical! The victory is almost unprecedented, and has dumb-founded the Radical demagogues, who *must now* see that *the tide is turning against them.* The contest was squarely fought on the issue between the President and Congress—*negro suffrage, military despotism*, &c.—and the WHITE stand-point has been overwhelmingly sustained.

Honor to the Golden State! Her's is the continuance of the revolution in public opinion commenced in Connecticut last spring, and which is destined to sweep the Radical party out of existence. At the October and November elections, Pennsylvania, New York, New Jersey and other States will sustain the verdict pronounced in California. Day is dawning, and

"Freedom's battle once begun,
Bequeathed by bleeding sire to son,
Though baffled oft, is ever won."

—The following are specimen dispatches:

SAN FRANCISCO, September 6.—California opposes and rebukes the tyrannical and disunion policy of Congress. We have elected Governor, Congressmen, Legislature, and City officers. Our victory is to the Radicals and Corruptionists a perfect Waterloo defeat. The Democratic majority is from five to ten thousand—a Democratic gain, at the lowest estimate, since the last Gubernatorial election, of 20,000.

SAN FRANCISCO, September 6.—We have swept the State, electing all our candidates—State officers, members of the Legislature, and a majority of all the local officers, besides Congressmen.—Three Democratic Representatives in Congress, probably, and a Senator, certainly, from California!

"HAVE YOU HEARD THE NEWS FROM MAINE, MAINE, MAINE?"

Light Breaking in the Darkest Places!

The election in Maine, *dark* as that State has been, shows that light is breaking even there. Immense Democratic gains are reported from all quarters.—York county, which last year gave a Radical majority of nearly one thousand, has gone Democratic by a large majority. Lincoln county, which was carried last year by the Radicals by 696 majority, has also gone Democratic. Knox county, which last year the Radicals carried by 470 majority, has gone Democratic.—Aroostook county, which the Radicals carried last year by 335 majority, has gone Democratic. In other counties the Radical majorities of last year have been cut down enormously. Returns from these counties secure a Democratic representation in the Senate of seven members, all complete gains. Immense gains have been made in representative districts by the gallant Democracy.

The immense Republican majority of last year, which was twenty-eight thousand, has been reduced to ten or twelve thousand. Indeeed, a despatch to the *World*, dated, Bangor, Sept. 10, says it is not certain that the Republican candidate for Governor is elected at all.

Maine sends a handsome greeting to the Democracy of the Union!

DEMOCRATIC VICTORY IN MONTANA!

The political tide is not only turned, but is sweeping on with a strength that will speedily annihilate Radicalism. Read the following despatch from Montana Territory. Though brief, it is glorious:

VIRGINIA CITY, Montana, September 10.—Kavanah, Democrat, is elected to Congress by about 1,500 majority.—The Legislature is almost unanimously Democratic.

HERE COMES "MOSES!"

CALIFORNIA.

California is an epitome of the Union. Her soil is peopled by the sons of every State in the Union, from Maine to Texas, and from Florida to Minnesota. The verdict of condemnation pronounced upon the Republican party and all its works by California has therefore a deeper significance than if it were pronounced by any State where sectional or local influences have greater weight. It signifies nothing less than the approaching dissolution of the party which has ruled and nearly ruined the nation during the last six years, and the speedy downfall of the men who were fast transforming our Republican system of self-government into a military despotism.

Welcome! thrice welcome! this news from the gallant Pacific State, which comes like a bugle blast of triumph and the cheers of victorious troops from one wing of a great army, pealing along the lines, and nerving their fellow-soldiers to a final and overwhelming onset.—*N. Y. World.*

LET the laboring men of Pennsylvania remember that they and their fellows of the North are being taxed at the rate of *more than fifty millions of dollars a year*, for the purpose of establishing the supremacy of the negro in the Southern States. Let them say whether they desire a continuance of that system when they go to the polls on the 8th of October.

WHO failed to make any provision in the last State appropriation, to pay the old soldiers of the War of 1812 the small annuity of $40 per year? Answer—the Radical members.

MORTAL.—The bite of the Copperhead—California species.

GOLDEN NEWS—That from California.

THE NEW YORK HERALD ON THE CALIFORNIA ELECTION.

The New York *Herald*, which, all through the war and up to a recent date, was with the Radicals "out and out," discourseth thus on "the moral of the California election:"

The Democratic victory in California is a protest against the negro supremacy policy of the Radicals; the protest of a practical, energetic and never over-conservative community against the wild theories and extravagant purposes that, by keeping the country at the fever heat of disturbance, are paralyzing trade. We may acknowledge in the broadest terms that there were causes within the Republican organization in the Pacific States that weakened it. Republican voters in California, as in Connecticut some time ago, were disgusted with the conduct of their leaders and remained away from the polls. Thus the vote was reduced, and this reduced vote was divided on different candidates. But these causes only gave a greater field to the rising wave, for the Democrats would probably have secured a substantial victory without them. There is, however, just enough in this view of the result—in this argument of the reduction and division of the Republican vote—to serve for the use of Radical leaders with the masses in the Atlantic and Mississippi Valley States. It will serve them to explain away the event—to prevent their voters from rightly understanding a lesson that would imperil the power of the Radical party. But the lesson is all the same for the country at large, for that large part of the people that is not to be deluded by the declamation of political spouters. It is the distinct declaration of the apprehension of the people of the Pacific slope that the tendencies of the dominant party are dangerous, and their purpose that it shall no longer be trusted with the destinies of the country. California has a population of vigorous, bold, thinking people. Her citizens bear the same relation to the Atlantic States that the people of these States at one time bore to Europe, and are made up of the adventurous, clear-sighted, intelligent men of all our Atlantic communities, who sought in the new State an ample field for an enterprising spirit that they could not find at home. Such a population is seldom conservative, and when it utters its political protest against party extravagance we may be sure that the whole nation is alive to the danger.

SIGNIFICANCE OF OUR VICTORY.

The significance of our victory in California may be judged from the confidence of the Radicals that they would certainly carry the State. The *Tribune* said on the day the election was held:

We are glad to notice that the differences in the party, although irreconcilable so far as the nominations for Governor are concerned, and possibly eventuating in the election of Haight, the Democratic candidate, over Gorham and Fay, the candidates of the rival wings of the Republican party, do not extend to the nominations for Congress. The party is a unit on these nominations in all the districts, and on a portion of the State ticket, and the candidates upon whom the Republicans are united will be certainly elected.

From this it would appear that there was no division in the Radical ranks except on the Governor. On the rest of the State ticket the fight was a fair one, which makes our success the more marked.

NO DANGER OF IMPEACHMENT.

The Washington correspondent of the Philadelphia *Ledger* telegraphs to that paper as follows:

From letters received here within a few days from various Senators, it does not appear that the impeachment movement has gained substantial headway among the Republican members of Congress who have heretofore opposed the measure. Outside of the real merits of the controversy between the President and Congress, there is reason to believe that impeachment will be opposed by a considerable number of the Republican members upon the ground of the impolicy of carrying this additional weight, as it is regarded by them, into a Presidential contest. This consideration, it is argued, will alone determine these Congressmen against the adoption of articles of impeachment, to say nothing of other complications, such as the objection to placing Senator Wade in the White House, which is deprecated by a good many leading Republicans.

IMMENSE MEETING IN BALTIMORE.

BALTIMORE, September 10.—The Democratic Conservative mass meeting convened at Monumental Square to-night to ratify the new Constitution exceeds in numbers any former meeting in Baltimore. The number gathered about the stand is estimated at 15,000 to 25,000. Delegations from the various wards, with transparencies and banners, paraded the streets. Ex-Governor Pratt presided. The meeting was addressed by Governor Swann and others.

Maryland is free again!

IF it be true, as Forney's *Press* claims, that the Republican rout in California was caused by the corruption of the party, what ought to be its fate in Pennsylvania? The corruption of the Radical Legislature of last winter was without a parallel. Thaddeus Stevens said so himself.

Should not, then, Pennsylvania treat Radicalism to the same rebuke? It can be done. Democrats, Conservatives—white men, all—arouse to the importance of your duty and the certainty of success if you perform it. *Go to work at once, and organize everywhere!*

GETTING HIS EYES OPEN.—The Washington correspondent of the Philadelphia *Ledger* says that "Gen. Grant has but recently discovered that he had misapprehended the situation." He finds that he has not full powers over "reconstruction;" that his authority only extends to removals of officers, and that district commanders have full and absolute powers in registration, election, &c. He has accordingly withdrawn his letter to the President with reference to the removal of Sheridan. His next discovery will evidently be that the whole matter of "reconstruction" is a fraud and an infamous piece of partisan machinery, that should be put down by the strong arm of the Government.

WHEN Thaddeus Stevens stated that the Republicans would come to grief in Pennsylvania this fall on account of their frightful corruption, he, in advance, gave an explanation of the painful defeat of Radicalism in California and Montana, and the overwhelming gains of the Democracy in Vermont and Maine. The truth is apparent that the masses are becoming thoroughly disgusted with the usurpations of the Congressional traitors, and they are preparing to strike the Radicals a crushing blow in Pennsylvania.

THE Radicals at first tried to break the force of the victory in California by pointing to the fact that there were two Radical candidates for Governor in the field. Now that it is ascertained that Haight has a majority of several thousand over both, they are utterly dumbfounded.

Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

The Compiler for the Campaign.—Only Twenty-five Cents!—We will furnish the COMPILER (large as it now is) at the low figure of 25 cents for the campaign, ending with the issue of October 11. "Circulate the documents!" The COMPILER stands by the white race against the mongrelism which Radical leaders are endeavoring to establish in this country, and will resist the infamous design at every point. White men everywhere must arouse to thwart the aims of the Radical fanatics and demagogues, and no better help can be found than the circulation of newspapers published in the interest of the white man. The COMPILER is doing, and will continue to do, its share.

The Fair Grounds.—Mr. Herbst, the energetic President, is pushing work vigorously on the Fair Grounds, determined as he is to have everything ready in time—and he will succeed. The two large buildings are done, and the Judges' stand was raised yesterday. The track is receiving the finishing touches. The stalls, &c., will all be ready in a few days.

The refreshment stands were rented at public outcry on Saturday last—E. H. Minnigh getting the first choice, at $110; the others varying from $20 downwards. The following persons secured stands: E. H. Minnigh, J. M. Warner, (who will occupy two,) Henry Overdeer, Wm. F. Baker, J. L. Holtzworth, B. F. Kepner, John M. Minnigh, and Levi Mumper—all for refreshments except the last, which will be occupied as a Daguerrean stand.

The Fair promises to be large and attractive, and the most extensive preparations will be made for it.

It should not be forgotten that stock and articles for exhibition will be carried over the Gettysburg Railroad free of charge, and that the fare for passengers will be much reduced.

Rain Storm.—An unusually heavy rain storm, accompanied with terrific lightning and thunder, occurred in this region last night week. The streams were much swollen, especially in the lower end of the county, Alloway's creek sweeping off bridges, fences, &c., to an extent hardly remembered by the oldest inhabitant.

Jesse Griest's residence, in Menallen township, was struck, severely shocking four or five persons, and prostrating Mr. Ammon Leas, who, at the time, had his arm resting on the stove, along which the electric fluid seems to have passed. He was insensible for an hour and a half, but revived under proper treatment.

A number of telegraph poles, five or six, were badly shattered on the Chambersburg turnpike, *near Plank's Gate.* It has been a matter of wonder that much more damage was not done.

Pic Nic.—A grand Basket Pic Nic will come off on Saturday next, the 21st inst., in John Cashman's woods, one mile east of Gulden's Station, on the road leading from Hanover to Hunterstown. Families and all others are respectfully invited. A platform for dancing, and swings, will be put up. Good music may be expected. Refreshments of all kinds can be had on the grounds. A pleasant time may be expected.

The Zouaves paraded on Saturday afternoon, in full dress uniform, attracting much attention, by reason of their soldierly appearance and excellent manœuvring. The Company has fine material, and Capt. Norris has few equals as a drill officer.

Property Sold.—Mr. Samuel Lilly has purchased from Mr. John L. Jenkins, a desirable farm of 108 acres, with excellent buildings, near the election poll, in Mountpleasant township. Twenty acres are in excellent timber, and the farm land has been well limed.

Persons in want of a good farm or country home should consult our advertising columns to day. Many of the properties offered for sale are very desirable; and the owners have wisely consulted their own interests in selecting the columns of our widely-circulated paper for their insertion.

Agricultural Hall.—Prof. B. Brown Williams lectured in the hall on the Fair Grounds, the last several nights, to good houses. The hall will supply a want long felt.

Fine Peaches.—We are indebted to Michael Frey and Raphael Sherfy, of Cumberland township, for several lots of splendid peaches—large and luctous.—Cumberland is hard to beat in the peach line.

Good Price for a Colt.—Mr. John Patterson, of Hamilton township, recently sold a sucking colt, to Mr. Conrad Alwine, for seventy-five dollars cash. The colt must have been a very fine one for its age, to command that price.

Another Call.—Our call upon delinquents has not been responded to as generally as we expected it would be, nor half up to our needs. Let the bare mention of the fact induce *all* to pay up without delay. It is NEEDED, every dollar due us.

The big Fair, to be held here week after next, will afford many opportunities for making payments. Those who do not come themselves, should send with their neighbors. It would be *very* convenient for us to have a few hundred dollars about that *time*. Will not our friends in arrears help us to it?

Imported.—By the ship "R. H. Tucker," just arrived from Liverpool, we have received our second importation of Queensware. A large invoice of "*Plain Iron-stone Ware*," of latest pattern and finest quality, which we offer at *very low Prices*. Please call and examine.

We offer to the *trade all* our *White Wares* at Philadelphia prices—*no charge for freight or package.*

Glassware at a further reduction.

We have also considerably reduced the prices of our finest quality of *Chewing Tobacco.* Please send for a Price List.

The Executive Committee congratulate the Company on the healthy condition of its financial operations, as exhibited in the above statement. The Board two years ago, desiring to guard against assessments, which are always expensive and prejudicial, determined to pursue the policy adopted by all reputable Insurance Companies throughout the country, and increase the Cash Premiums, reducing largely the Premium Notes. The result is, that with largely diminished liabilities, a cash surplus fund of $3,081 40 has been already accumulated, with which to meet future losses. As this Company is strictly mutual in its character and conducted exclusively for the benefit of the policyholders, the Committee recommend that this policy be continued, as being the safest and in the end the most economical system of conducting insurance operations—leaving it to the option of property holders in the county whether or not to avail themselves of the advantages of an accumulated cash capital, for the prompt liquidation of losses by fire, without the expense and delay incident to assessments.

REPUBLICAN ADDRESS.

We advise Mr. Jordan, the Chairman of the Republican State Committee, when next he writes an address to the Republican masses, to give information how the people are to be relieved from the present incubus of taxation. This howling about "copperheads," "traitors," "treason," "sympathisers with rebels," &c., &c., did very well during the war, when he and his brother contractors were filching greenbacks from the public treasury faster than the printing presses could issue them. People have got tired of such slang phrases. The tax collectors are around as thick as were the frogs in Egypt, and the people wish to know how they will get clear of them. Will Mr. Jordan, in his next address, please answer the public wish in this particular. And while he has his hand in, will he please explain the little transaction of converting five per cent. bonds into six per cent., thus increasing the taxes of the Commonwealth some four hundred thousand dollars? Never mind what Beauregard, Johnson, Hampton or other leading rebels say about the reconstruction acts. We know a great many of them are, like a great many Republicans, to be found where the *stealings* are the best. What is wanted just now is a *relief from the taxation* which you and your party entailed on the country. A remedy, sir—a remedy.—*Butler Herald.*

THE Gettysburg *Compiler* has been materially enlarged, and is now one of the finest looking papers in the State, as well as the most faithful advocates of Democracy.—*Lewistown True Democrat.*

THAT sterling Democratic paper, the Gettysburg (Pa.) *Compiler*, comes to us this week greatly enlarged and improved. It is now elegantly printed on one of Potter & Co's. large cylinder power presses. We congratulate the proprietor on the change.—*Frederick Union.*

THE *Gettysburg Compiler*, for the last twenty-two years edited and published by that sterling Democrat, Henry J. Stahle, Esq., has been greatly enlarged and improved, so that now it is one of the neatest of our exchanges. It has been doing giant service in old Adams. We hope the editor will be amply rewarded for his outlays.—*Maryland Journal.*

WHAT IT MEANT.—The Radical Republicans have claimed to be in favor of "*impartial* suffrage." The people may learn what they mean by impartial suffrage from their application of the dogma in the South. Their action in that section shows plainly, that the Radical idea of impartially as respects the right to vote, consists in taking that right away from four-fifths of the Southern whites, and bestowing it indiscriminately on all the blacks. And why? Only because the Radicals hope to control the negro vote in the South, and by placing *the balance of power* in the hands of ignorant freedmen, enable them to give the *casting* vote in every Presidential election, and keep the "negro party" in power for a long succession of years. Are the white voters of the North willing to aid that party in making the negro the ruling element in the National Government?—*Sunday Mercury.*

SEVERAL fatal cases of cholera are reported to have occurred among the troops on Governor's Island, New York. The disease is said to prevail there to such an alarming extent that all communication with New York city has been interdicted.

Executrix's

The Gettysburg Compiler.

FRIDAY AFTERNOON, SEPT. 13, 1867.

DAWES, a Radical Member of Congress from Massachusetts, has publicly howled "the conflict is not yet ended." That's so; it has only begun—in Connecticut and California, for instance.

ALL over the land, wherever the Radicals have been in power, comes the same tale of increased taxes—of extravagance and plunder.

BEFORE his removal, satrap Sickles appointed Beverly Nash, a negro, to be police magistrate in Columbia, the capital of South Carolina. He was bound to leave his mark.

RICH gold mines have been struck at Sheffield, Vt., by parties who have been prospecting since May.

A STEVENS OPINION.—C. L Vallandigham made a speech at Ripley, Ohio, one day last week, in which he said he had seen a letter from Thad. Stevens to President Johnson, asking for the release of Clement C. Clay, in which Stevens said that no man could be legally and constitutionally convicted of treason, but that, therefore, the sooner these men were let go the better.

GEN. Hancock, in his testimony before the Indian Commissioner, is very decided in his opinion that a serious war exists, and even declares his belief that, if the troops were withdrawn, not a white man would remain in Colorado, and the great highways to the Pacific would be closed.

THE tax-payers of this State should remember that under Radical rule fifty millions of dollars are being paid yearly to keep up the vast force of officials in the South, whose business it is to manage the negro vote for Radical candidates for office. This is rather a costly speculation. The Radicals clamor for protection to American industry. Why not protect it against such outrages as those committed by the Radical Congress?

IN a recent speech at Mansfield, Lee, the Radical candidate for Governor of Ohio, said: "I here make the assertion that the 7,500 men, of 21 years of age, in Ohio, with black blood, are better qualified by reason of intelligence to vote than there are 7,500 white men in different parts of the State, many times told." The proper place for a person who talks in that way is Hayti. We cannot see how the white men of Ohio can support such a traducer of their race.

IN A QUANDARY.—Before the United States Commissioner at Richmond, Virginia, a day or two since, a person charged with evading the revenue laws plead want of jurisdiction, on the ground that the revenue laws of Congress provided the same number of inspectors for each State as each State had Representatives in Congress, and as Virginia has no Representatives, and not even an independent State government, there can be no legal inspectors within her limits. The Commissioner was nonplussed, and took time to consider.

RADICAL LOYALTY.—Our readers are aware that the Radical Republicans, have assumed to be the only *loyal* people in the country. Loyalty means faithful adhesion to the laws of the land. The Constitution of the United States is "*the supreme law of the land.*" Hence, fidelity to that, is the highest style of loyalty. Yet Thaddeus Stevens, the leader of the Radical party in Congress, has just declared, in a letter to Samuel Schoch, that "the whole work of reconstruction," done by him and his confederates in the Senate and House of Representatives in the 39th and 40th Congresses, was done "outside of" and in "repudiation" of the Constitution! Now then, we ask the people to say whether the party which undertakes, by a simple majority in Congress, to abolish the fundamental law of the National Government, is not guilty of the most glaring disloyalty—of the most atrocious treason? If not, then we do not know the meaning of the terms.

THE following extract from a letter written by a Northern man, an Old Line Whig, by some years a resident in Mississippi, to his friend in Philadelphia, shows to what a condition Radical legislation has reduced the people of the South:

"I have little to say about our political matters. They are patent to all. A more unwise, revengeful, and oppressive course of legislation could not have been enforced on a poor, broken-down, and poverty-stricken country. We are now at the mercy of the negro, and God only knows what the result may be. I fear the worst and regard my country as hopelessly ruined. How a generous North can look on and see such a condition of things, I confess, to me, is astonishing. The result of registration with us in Mississippi and Louisiana shows three negroes to one white man."

FRIDAY AFTERNOON, SEPT. 13, 1867.

BENEFICIAL EFFECTS OF LOOSENING THE SOIL.

The following extract from "Fuller's Small Fruit Culturist," may be read with profit:

"Deepening the soil is not wholly for the purpose of furnishing more plant food, nor to facilitate the downward growth of roots, but it is principally for the purpose of disintegration, and making it of such a consistency that it will be capable of retaining a sufficient amount of moisture at all times to nourish and supply the plants growing therein, but not enough to be detrimental. Rain water, as is well known, contains gases that are beneficial to plants, and if the soil is in a condition to allow it to pass through it, a large portion of these gases will be retained, but if the surface is hard, the water either runs off or remains until it evaporates.

"Again, a soil that is loose and friable, admits air and with it moisture. To prove this fact, we have only to take a piece of glass or polished steel, or any similar substance, and place it in an ice-house where it will become cold; then carry it into the open air, and in a moment it will be covered with water condensed from the atmosphere. Now, we know that this moisture did not exude from the glass, therefore it must have come from the air. By stirring the soil, and placing that which has become heated underneath to warm the roots, and bringing the cooler portions to the top to condense the moisture, two objects are obtained: besides loosening the earth that it may be the more easily penetrated by the mere rootlets, it at the same time admits the air charged with moisture for their nourishment. The benefit derived from frequent stirring of the surface soil in dry weather, especially if it be of a compact nature, is mainly derived from the admission of air containing moisture. Many cultivators appear to think that all that is required of them is, to keep the weeds from growing among their plants, and they never stir the soil except for this purpose; but our best cultivators have learned that frequent moving of the soil is beneficial to all crops, especially in time of drouth. If any one doubts that soil can be made moist by frequent stirring, let them select a piece of ground under some open shed where no rain has reached for a year or more, break up the soil and pulverize it finely; then stir it and turn it over every morning for a week or two, and it will become quite moist, while a similar soil in the open field, which has not been stirred, will be parched and dry. Mulching the surface with straw, leaves, or similar materials, is often very beneficial, especially to plants whose roots do not penetrate deeply. The mulch not only assists in preventing evaporation, but fissures condensation of moisture from the air which passes freely through it to the soil."

WALKING HORSES.

The best gait a horse ever had for every day use is a good walk. It is a gait that not one in ten possesses. Colts are not trained to walk in all the Eastern States. Young America wants more speed. Kentucky has more good walking horses than any other State, for there horse back traveling has long been in fashion for men and women over a country where muddy roads, at some seasons, rendered any other gait impossible, and no horses have been bred for the saddle and trained to a walking gait. This is also the case in all the Western States, and perhaps might have been so in New England when our grandmothers rode to meeting on pillions behind our grandfathers. But one horse wagons have put horse back riding out of fashion, and now a good walking horse is more rare than one that can trot a mile in 2.40.

At the Springfield (Mass.) Horse Show of 1860 the writer was one of a committee to award prizes to the best two walking horses. Out of seventeen entered, the committee found but one which was considered a first rate walker. This was a Morrill mare, which walked five miles an hour with ease. Two others were fair walkers, and the others knew no gait that could be called walking. At the New York State Fair the same state of facts was again developed. A letter from Wisconsin says: "I think horses trained to walk fast would be a greater benefit to farmers in general than fast trotters, as almost all of his work has to be done with a walk. I once knew a man in Massachusetts who, before the railroads were built, kept from two to four teams at work on the road, and never allowed them to trot at all, and made the distance in quicker time than his neighbors, who made their horses trot at every convenient place. He said that when a horse commenced to walk after a trot, he walked much slower than his common gait if kept on a walk, and thereby lost more timet han he gained." Will farmers think of this and pay more attention to walking horses?—*Solon Robinson.*

HOW TO KEEP POTATOES.

A correspondent of the *Scientific American* says that he has tried the following method of keeping potatoes for years with complete success, though in some instances the tubers were diseased when taken out of the ground:—"Dust over the floor of the bin with lime, and put in about six or seven inches deep of potatoes and dust with lime as before. Put in six or seven inches of potatoes and lime again; repeat the operation until all are stored away. One bushel of lime will do forty bushels of potatoes, though more will not hurt them—the lime rather improving the flavor than otherwise."

TOMATO CATSUP.—Now that tomatoes are in their greatest abundance, the following recipe for making tomato catsup, communicated by Mrs. Page to the *Prairie Farmer*, will be found useful:

"Take ripe tomatoes (the small red ones are preferable,) wash but not skin them, and throughly boil one hour, and then put them through a hair sieve, and to one quart of juice add one table-spoonful of cinnamon, one of black pepper, half of cayenne, half of nutmeg, one of good mustard, two-thirds of tea-cupful of salt. Boil three hours, and then to one quart of juice add one pint of pure cider vinegar. Boil half an hour longer; bottle hot and seal up. This catsup will keep for years, and not require shaking before using. A porcelain kettle should be used."

ORIGIN OF THE TERM NEWSPAPER.—In Hadyen's Dictionary of dates, it is said that news is not, as many suppose, derived from the adjective new. In former times (between the years 1795 and 1820) it was the prevalent practice to put over-sea, periodical publications of the day, the initial letters of the compass, thus:

N
E-I-W
S

Importing that these papers contained intelligence from the four quarters of the globe; and from this practice is derived the term newspaper.

SEWING MACHINES.

The Grover & Baker.—The Best in Use.

THESE Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. They are simple in their construction, easy to manage, and may be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money,* and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.
